

2,053 Texas
members of
SumOfUs ask
Dallas County
Commissioners to:

“Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.”

September 8, 2014

Commissioners Court
411 Elm St.,
Dallas, TX 75202

Dear Members of the Dallas County Commissioners Court,

Please find enclosed 2,053 public comments from our members in Texas urging you to reject the proposed contract with Securus. Our members urge you to vote against this contract that would ban in-person visiting at the jail and instead require families to purchase expensive video visits.

SumOfUs is a global corporate accountability organization with more than 5 million members around the world. Last year, the Federal Communications Commission cited our organizing as a reason why that agency has taken action to regulate the high rates of inter-state calls. Reducing some of the costs of calling home was a huge victory for families, but we were dismayed to see the industry's shift into the currently unregulated and equally exploitative video visitation market, and then disturbed to learn that your county was considering a contract that would actually ban in-person visits. This is a step in entirely the wrong direction.

We quickly told just a portion of our Texas membership about your proposed contract, and in less than 12 hours collected 2,053 petitions which we present to you here. The vast majority of the petitions are from Texas residents, but, as you will notice, some of our members were so outraged that they shared our Texas petition with their friends and families in other states and countries.

On the petition, we gave our members the opportunity to explain why they were signing the petition, and we reprint 310 of those comments in larger print.

On behalf of the Texas membership of SumOfUs, I urge you to vote against this contract. Put it out to bid again to solicit a contract that would put the interests of Dallas County and Dallas families above the interests of Securus.

Sincerely,

s/n
Paul Ferris
Campaign Director

The prison system is badly broken, people often aren't hardened criminals, just a lot of folks who have made bad choices, limited education, need help with addictions or mental health. The money would be better spent addressing the underlying causes and true treatment.

In-person visits are very important to the mental well being of inmates and their families. Also, I have dealt with Securus in the past. They don't give a flip about inmates and their families. They only care about their profit margin. Voice calls alone are cost prohibitive for inmates and their families. Video calls would be even more so. All that being said... I do believe video calls in addition to in-person visits, voice calls and emails would be beneficial to inmates and their families. But NEVER should video calls replace in person visits.

Another example of corporate greed at the expense of the less fortunate. This might be supportable if it involves a serial murderer serving time, however that's far from the case in most incarcerations.

It is so wrong to consider banning personal visits in favor of video calls that make profit for the corporation sponsoring them. All of us in society need prison recidivism rates reduced. Banning in-person visits from family members would do the opposite. It would be unconscionable.

I am signing this petition because I have a friend currently jailed. I have a master's degree and a good job yet it's a struggle sometimes to put money aside for the calls or commissary. My friend is there as a result of addiction and poor choices. However, video conferencing is no substitute for face to face, even through glass. If this is going to happen, do it at market rate. ..you'll still make a profit.

The prison systems in the State of Texas and indeed
throughout the U.S. need to be re-evaluated,
improved and not used as a for-profit system. This
action by a large corporation is another example of
corruption and greed towards citizens and residents of
this country, who do not have the financial power or
backing to stand up for their civil rights.

Making a buck off the suffering of others is wrong. Yes, some inmates are pretty wrong themselves (and some are innocent, repentant, or in jail for laws that shouldn't be), but this also punishes friends and family who could be downright saintly, all to create a need that currently doesn't exist. This is like purposefully making inmates ill so a private prison healthcare company can make a profit off the treatments. STOP BEING EVIL, GREEDY WANKERS.

I am signing this petition because nothing substitutes for person-to-person contact. Inmates are already isolated enough. We need to be encouraging them to be a member of our communities, not working in the other direction. But, mostly, because this is a punishment for the families as much as it is for the inmates, to not be able to see their loved ones, and they don't deserve it. None of them do.

Privatization of prisons and corporate influence of any type in prisons is an ENORMOUS conflict and completely unethical and immoral! I'm appalled at the state of our prison system and how the system has been turned into a money-making venture. This is not only a conflict of interest, but should be HIGHLY illegal!! The public is required to know the TRUTH!!!

The first objectives should be 1) justice served for the crime and/or victim and 2) rehabilitation so that the revolving door back to prison stops the first time in. I have personally seen this similarly disgusting practice of bleeding the families of the incarcerated dry, as though they aren't going through enough already. Any company that tries to prosper by stepping on the heads of the people who make up our great nation, should be shut down effectively and permanently to show at the least that America can not, and Will not, tolerate such a barbaric practice to continue. Some one has the ability to make sure it stops here. The family of the incarcerated are not guilty of the same crime, so then why are they too still being punished? ! Please stop this because it is beneficial only to those making the cash, and last time I checked, they're not going on to commit the same crimes, ruin families, both their own and their victims. As the great Robin Williams just taught us all, sometimes it takes one single word from a stranger, friends or family member and you can save a life. How do we continue to value money over people. One day, it may be the people you choose not to save today that will be saving your life tomorrow. ... Sincerely Yours, Debra Cline

I do not believe that taking away a touch of humanity from those imprisoned helps them or their families to achieve a change for the better. If we want to truly rehabilitate incarcerated people then we need to allow some form of humanity (to include) in person contact to exist. It also takes away any form of human contact from the family members. This push for video communication only serves those who wish to profit from the less fortunate!

It's bad enough that prisons in this country are privatized, run for profit, and that we have the largest prison population in the entire world, despite having a tiny fraction of the total population. Abuses such as this have no place in an already broken system badly in need of abolition and restructuring.

My uncle went to prison for 7 years. He was an unstable man that needed contact with his family, face to face. Just having a screen isn't enough for many people, especially cons. Such a cutting off from people, especially loved ones, can cause cons to become even more unstable and detached from the rest of society.

Didn't know that cruelty was part of the mentality of the for-profit prison system. Shame on you. Prison is for paying one's debt, hopefully for some rehab, but NOT to use your power to be cruel on top of all the rest. Shame. Putting profit (as usual) before human needs.

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

It is vital that family, especially children, have in person contact with an imprisoned parent. Please continue to let families visit their incarcerated family members in person. Video visits are too impersonal and too expensive. Why are you letting some private organization dictate policy to you anyway? Families have a right to visit in person their members that are imprisoned. Don't take their humane contact away!

Privatized prison services are already an affront to society, by turning incarceration into profit by soaking the taxpayers. This blatant move by Securus illustrates that 'without a law, there is no market' for their business model. If you can't make money on your teleconferencing WITHOUT this, then Your. Business. Is. Flawed. Full stop.

Aren't there enough places for these companies to profit from without more ways to rob those already hurting. In person visits give a person more reassurance than any video contact and there are still many people who do not have or want to own computers. If we don't watch it these companies will find a way to force us to just give them our money no matter what. Let the visit continue and get big business out of our prisons.

This is just another way for the prison system to make a profit! It's not helpful, it's harmful. We need to get our judicial system out of the hands of money makers who profit from someones misery and extend that misery onto the family members. The poor, family members have a hard time just helping out their loved ones with a few bucks to buy essentials like bath soap, shampoo & deodorant. Don't penalize the family any more than the judicial system already does.

Because, when people are in jail, they should be treated, regardless of their crime, like human beings, not a money making ATM from, most of the time, people who have no money. This is outrageous and it can't be Christian, nor democratic, so my question is: What gives or in this case who takes. I suggest that instead of treating people in jail like America does, why not try like Norway does. Talking about democracy, talking about redeeming, ow that's what I'm talking about.

Why are you signing this petition? It is the right of all citizens, including detainees and prisoners, to fair punishment free of being 'cruel and unusual'. Charging them even more money when they don't have any by and large is cruel. Restrictions on visitors beyond what little they already are limited to is extremely cruel. It's geared for recidivism! Disgusting! Our system is broken, stop breaking it further!

Securus is obviously out to make a lot of money at the expense of people, many of them very poor, who have loved ones in Texas prisons. Most of the poor families will not be able to pay the fee Securus is likely to charge. If so, they will lose face-to-face contact with family members. My husband has served as a mentor to several prisoners and knows the importance to them of keeping in touch with their families. Please

Vote against granting a contract to Securus. We need to do all we can to help rehabilitate offenders of the law.

Why are you signing this petition? because I'm on a fixed income in the same state with my husband and being charged 6 dollars for a 20 minute phone call. I can only see him for 20 minutes and it is through video. I'm going through health issues and need to feel my husbands touch. We are humans who require human contact and they wonder why at birth they lay newborns on the parents skin. Our loved ones are not animals and should not be treated as such.

Seems to me that if Securus would lower their phone rates to reasonable costs and offer video conferencing as an option, (that they will charge a fair rate to provide) it would allow those, who cannot travel long distances to visit relatives, a connection opportunity. Those that can come in person will also be able to see their loved ones. Win/Win

Why would you ban in-prison visits and only allow video conferencing? Video conferencing sounds like a nice alternative to offer to families, but it should be offered only as an alternative. I Agree with SumofUs. org that you would be placing an undue burden on families who have diminished resources. I am a citizen of Denton County, and feel like you would be disadvantaging some of my neighbors with this policy Please STOP any consideration of Securus contracts which evidently are overcharging for services that most of us find expensive as is.

United States

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

People in prison have families that love them and they deserve to be able to SEE them and talk with them in person! Banning in-person visits is inhumane and a HORRIBLE idea!!

Ruth Lucas
Colleyville, TX 76034
United States

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

The main reason why these people are in prison is to rehabilitate them. The best way to rehabilitate is to make sure they are given as much incentive to improve themselves as possible. If anything, visiting hours need to be expanded. Now if these companies want to ADD this feature to their in-person visits and have the prison pay for it themselves, I can go with this. But otherwise, it is not in the best interest of the prisoner. What is important? The prisoners or the profits?

Christine Lund
Houston, TX 77093-6744
United States

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

Why are you signing this petition? What if Securus were to offer free phone calls for all in-mates whose families meet low income guidelines set by the Federal or State government? Otherwise this is reprehensible. This is the kind of crap you see in the Sci-Fi movies that you think would never happen in the United States.

I am against efforts to turn government functions over to private companies, which is done more to enhance the owner's income than to save tax dollars. Personal visits have been shown to reduce recidivism. The same has not been shown to be true of video 'chats.' Do not be misled by corporate marketing doublespeak. This is not a good idea for the County, the inmates, the families, or the victims. It exists only to enhance corporate profits. In other words, there is no good reason to contract for this 'service.' Thank you.

Rich Noyes

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

People need one on one interactions with loved ones. They are incarcerated already, they are doing their time. Why strip away basic interaction. I believe this will cause a violent environment to become a more violent hostile environment.

United States

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

Why are you signing this petition? Because it's wrong in more ways than one. We as family members deserve to have the right to be able to have contact visits especially for the children's sake. They need to be able to see and touch and hug their incarcerated parent. Also by cutting the inmates completely off from the public in my opinion will cause them to be more frustrated etc and more fights etc will break out. Not to mention most people don't have and or can't afford internet that it would take for video visits. Again on internet it's not that great and would have plenty of bad connections I've heard plenty of people in other states complain because during their video visits it freezes etc also they have the option to either use video visits or go to visit in person. I could go on and on why this is a very very bad idea... I strongly advise you to

Vote against this.

The purpose of the prison system is to rehabilitate and release back into society most of the prisoners in the system. It is a system already supported by taxpayers. Why are the same tax payers paying being extorted when trying to keep in touch with loved ones. This is a double taxation situation. It is not only the inmates being effected but the tax paying family members. Those family members already struggling with the lose of a bread winner, child care giver, partner, etc.

This is a pitiful idea that has only the enrichment of Securus at the expense of keeping inmates, most of whom will return to their homes and families, from maintaining relationships with their loved ones. I know there are some 'bad players' involved in jails and that there are families who would seek to support continued criminal activity. But this plan appears to target all inmates....not a good idea at all.

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

This is clearly cruel and unjust. Keeping people from their loved ones and caring human contact is inhumane. These people are 'criminals', but still people nonetheless. They hardly get anything to look forward to anyway.

Johnny Sanchez
Austin, TX 78734
United States

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

Why are you signing this petition? Because I think we should get rid of all 'private' prisons that run for profit for any reason---phones or not. Nobody should be making a profit from prisons, period!!!

United States

Vote against granting for-profit prison phone company Securus a contract that would substitute visiting hours for expensive corporate-sponsored video calls.

The saving grace of prisoners is the loving contact with families that are there for them in the flesh. It's important for the morale of the inmates and the safety of the guards that the closest personal contact be allowed. If there is a charge for Securus program, as I assume there is, it's just one more indignity to the to both the inmates and their families. Incarceration may be needed, but so is compassion.

Because it is ridiculous to cut off all positive human contact. I understand prisons are for profit businesses. I understand keeping people in prison is a money making proposition. Having said that there are moral reasons why this is SO WRONG! And we in this country need to stand up and say no to these corporations! Allowing families to visit, prisoners allowed to kiss and hug their kids and spouses will only remind them what is waiting for them on the outside. Why they want to get out. Securus needs to be stopped. And even if you are thinking that the prisoners don't really have a right to see their family, don't their families have a right to see the prisoner? When did this country become so damn cold-hearted?

the way jail calls are charged is already travesty enough. if you understand that issue and if you understand how punitively moving inmates to great distance from family so that an already costly visitation can be a Major expense and then add this ..you are essentially making visits impossible, breaking families and hardening inmates. the arguments of contraband are specoous. mosyly thst is done on a commercial level, kitchens guards etc.

This is simply the wrong decision--not only for the prisoners, but also for their families. It is especially awful to do this to children. There is not a price you can put on the lives of these children and the impact your decision will have. Do both, Dallas County Commissioners, expect Securus to do both. They can afford to do this. I think keeping families connected actually has benefits to Securus in terms of managing people and anger. Securus does not need to make more money. Do what's right for individuals and families not what's more profitable for Securus. D

A person in prison may have violated the law and, in some cases, it may have been an egregious violation of the law. However, that prisoner is still a human being and, as such, is entitled to certain inalienable rights under our federal constitution. This contract would seek to strip prisoners of these rights and, therefore, cannot be allowed.

When my son was in prison for 8 months over a horrid domestic dispute I had to use Global Tel to communicate with him. It was a nightmare. I would pay \$50 and get to speak to him for 11 minutes !! It took several tries for him to get thru. Each attempt was \$4. Of course the system was rigged so he could not get thru and gobble up my money. It was a nightmare. Several times they lost my deposits, etc. It was the most frustrating time of my life. Important attorney information, court dates, etc. was lost thru that system.
