

Maryland taxpayers spend approximately \$288 million to incarcerate 7,794 people from Baltimore City. The burden of incarceration is disproportionately felt by some communities. The same communities that experience incarceration most acutely also have the greatest challenges serving their residents. Rather than spend millions of dollars to incarcerate people from each of these communities, the funds could, instead, be invested in education, workforce development, treatment, and housing services.

<b>Number of people in prison from Dickeyville/Franklintown</b>	<b>41</b>
<b>Cost of incarcerating people from Dickeyville/Franklintown</b>	<b>\$1,517,000</b>

## Challenges in Dickeyville/Franklintown

The challenges that Baltimore communities face contribute to a cycle of incarceration, poverty, and lost opportunity. Redirecting people and funds away from prison would help Baltimore City address these persistent challenges and barriers to the success of each community. Specific indicators of the challenges faced by this community include:
