SERVICES AND RATES

Interstate Institutional Operator Assisted Calls

Automated operator assisted collect calling services for use by inmates of confinement facilities are charged individually for each call placed through the company's network. Consumers are billed based on their use of the company's service. Charges may vary by service offering, mileage, class of call, time of day, day of week and/or call duration. Unless otherwise specified, charges consist of a usage charge plus an operator service charge.

A. Interstate Collect Rates and Charges

The rates listed below are those charged for interstate calls from most confinement facilities. However, rates may vary if service is offered on an individual contract basis to meet specialized requirements of the confinement facility. These exceptions are listed herein under section D.

C. Other Charges

1. Billing Statement Fee: In order to partially offset increased expenses associated with billing calls through local telephone companies, a billing fee may apply each billing period in which local or long distance collect calls are billed to a consumer's local telephone company. This fee will be charged only once per billing period regardless of the number of calls. The fee will not apply in any billing period in which no collect calls are billed via the consumer's local telephone company. This fee does not apply to prepaid services or for services billed directly to the consumer by the company.

Bill Statement Fee

Bill Statement Fee, per month where applicable: \$3.49

2. Bill Processing Charge: An undiscountable bill processing charge of up to \$1.49 may be applied to an End User's direct bill in each month in which collect calls from Confinement Facilities are billed, regardless of the number of calls accepted. The bill processing charge is a monthly fee to recover some of the Company's billing expenses associated with calls from Confinement Facilities served by the Company. No charge will be assessed in any month if no collect calls are accepted. This charge will not be assessed on End Users who prepay for their services.

3. Voice Biometrics (f/k/a SECUREvoice™): This charge may apply to automated calls placed by inmates of confinement facilities when such calls are provided through Securus Technologies, Inc. own processing equipment. Voice Biometrics provides validation of inmate personal identification numbers (PINs) through voice verification technology for purposes of improved security and reduced potential of fraud and consumer harassment by inmates. Where installation of Voice Biometrics is requested by confinement facilities, this charge applies in addition to all applicable message charges and operator assistance service charges.

Voice Biometrics Rates and Charges

Per Call Charge (where available, at the request of a
confinement facility): \$ 0.40

4. Federal Regulatory Recovery Fee:

The Federal Regulatory Recovery Fee helps recover costs associated with the provision of state-to-state and international long distance services including the administration of the federal universal service fund (USF), other federal regulatory fees, proceedings and compliance items. The Federal Regulatory Recovery Fee of \$3.49 applies each month in which an end-user accepts state-to-state and/or international calls. This fee includes the USF Administrative Fee.

5. USF Administrative Fee: The federal government requires that all telephone companies providing interstate service contribute to a fund to make phone service affordable and available to all Americans, including consumers with low incomes, those living in areas where the cost of providing telephone service is high as well as to schools, libraries, and rural health care providers. The law permits companies to pass this charge on to its consumers. This fee, which is known as the federal Universal Service Fund fee (USF), is based on a specific percentage of the cost of interstate calls that is set by the federal government. Companies are also permitted to charge the consumer an administrative fee to cover their costs for administering the government's USF fees. The USF administrative fee is assessed on consumers that accept interstate calls.

USF Administrative Fee \$1.00

6. Return Check Charge: A return check charge of \$25.00 will be assessed for checks returned for insufficient funds.

7. Transaction Processing Fee: A payment processing fee in the amount of \$7.95 is applicable to credit and debit card payments submitted to the Company via the Securus automated system, the Securus call center and the Securus website. This fee does not apply to payments mailed to the company or submitted via a customer's online banking service.

C. Other Charges (Continued)

8. Prepaid Expiration and Refund Policy: The End User may request a refund of the available balance in an AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information.

Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to \$4.95 and no refunds will be issued for accounts reflecting a balance of \$4.95 or less. No refunds of unused balances will be issued after the expiration date.

9. Wireless Administration Fee – a monthly fee of up to \$2.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the **Wireless Administration Fee** will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the **Wireless Administration Fee** will apply going forward.

10. Inmate Debit – Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility's inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company's points-of-sale. Funds placed in this account become the property of the inmate.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.

D. Contract Collect Rates

At the option of the company, service may be offered on an individual contract basis to meet specialized requirements of the confinement facility. In some instances, the interstate rates may differ to meet the specialized requirements, which are determined by contract. The following contract rates are currently effective at certain Securus facilities and are available to similarly situated facilities. Calls are billed in one (1) minute increments following an initial period of one (1) minute. Contract includes a facility-specific mix of services and non-regulated screening and blocking equipment. Rates are not mileage sensitive or time-of-day sensitive.
