RE: *Rates for Interstate Inmate Calling Services*  
**WC Docket No. 12-375**

CALIFORNIA  
DELAWARE  
ILLINOIS  
NEW JERSEY  
NEW YORK  
PENNSYLVANIA  
WASHINGTON D.C.  
WISCONSIN

Dear Ms. Dortch:

Pursuant to Section 1.1206(b) of the FCC's rules, Martha Wright, *et al.* (the "Petitioners") hereby submits the following information regarding current Local, IntraLATA and InterLATA rates being charged by Inmate Calling Service (ICS) providers. This information is provided to supplement earlier submissions by the Petitioners that urged the FCC to adopt rules providing relief to ICS customers making Intrastate ICS calls.

Attached hereto are excerpts from the tariffs of several ICS providers. In July 2013, the Petitioners submitted similar information relating to Interstate ICS calling rates, in response to the ICS providers refusal to provide the information despite the FCC's repeated requests. Subsequent to the adoption of the Report and Order in this proceeding, the ICS providers sought and received a partial stay from the U.S. Court of Appeals of the rule requiring the submission of rate information. *See* 47 C.F.R. §64.6060(a)(1)(i)(2014). However, the FCC currently has under review a Further Notice of Proposed Rulemaking in the above-referenced proceeding, and the issue of providing relief for Intrastate ICS has been raised.

Therefore, the attached information will be useful to draw the FCC's attention to the need for Intrastate ICS relief. While the provided information is not exhaustive, it does illustrate the widely-divergent rates for the three classes of Intrastate ICS calls. The wide range of rates cannot be explained solely by looking at whether a call is local, IntraLATA, or InterLATA. Moreover, since most every ICS call is routed to calling centers outside the originating state, the artificial differences in rates among Local, IntraLATA and InterLATA calls are simply unnecessary. While ICS providers have previously attempted to divert the FCC's attention from reviewing their tariffed rates, in light of the ICS providers' past refusal to provide this information, and the fact that these providers went to the extreme measure of obtaining a court order staying the effectiveness of 47 C.F.R. §64.6060 so that they would not have to provide this information, the ICS providers cannot now argue that the FCC should merely ignore the publically-available information.
