HUB System:

**Profile of Inmate Population
Undercustody on January 1, 2002**

George E. Pataki
Governor

Glenn S. Goord
Commissioner

EXECUTIVE SUMMARY

In 1992, the New York State Department of Correctional Services reorganized the delivery of program services to the inmate population. One of the components of this plan is grouping the correctional facilities by geographical proximity into administrative regions. This report presents a profile of the inmate population within each region. This executive summary briefly describes the characteristics of the total undercustody population and then lists the range of values found across the nine administrative HUBs on a selected set of variables.

CHARACTERISTICS	CATEGORY	TOTAL UNDERCUSTODY	RANGE ACROSS HUBS	
			Low	High
Gender	Female	4.6%	0.0%	21.5%
Age	Average age	34.6 yrs	29.8 yrs	37.4 yrs
Race/ethnic status	White	17.5%	10.9%	24.2%
	African American	50.8%	47.3%	53.5%
	Hispanic	29.9%	24.8%	35.5%
Region	From New York City	62.2%	47.5%	77.7%
Birthplace	Foreign Born	12.6%	10.1%	15.6%
Marital Status	Never married	64.8%	57.5%	75.0%
Living Children	One or more living children	59.3%	46.4%	64.5%
Religious Affiliation	Catholic	30.6%	26.9%	34.5%
	Protestant	30.3%	27.5%	35.0%
	Islam	15.5%	13.1%	18.0%
Veteran Status	Veteran	5.7%	4.2%	7.8%
Minimum Sentence	Average minimum sentence in months	95.6 mos.	50.4 mos.	136.5 mos.
Crime	Violent Felony	54.7%	40.5%	70.9%
Second felony offender status	Second felony	48.2%	38.1%	60.7%

CHARACTERISTICS	CATEGORY	TOTAL UNDER CUSTODY	RANGE ACROSS HUBS	
			Low	High
Prior adult criminal record	Prior prison term	34.9%	27.4%	40.0%
Time served at current facility	Median time served in months	7.3 mos.	5.1 mos.	12.4 mos.
Time served in Department custody	Median time served in months	26.0 mos.	14.6 mos.	64.6 mos.
Time to earliest release	Median time to release in months	15.4 mos.	10.9 mos.	27.0 mos.
Reading level	Test results at 8 th grade or below for all inmates	37.2%	27.4%	41.2%
Academic Degree	Verified high school diploma or above	48.8%	44.6%	61.0%
English language fluency	English dominant	89.8%	86.8%	92.2%
Alcoholism	Alcoholic	25.6%	20.4%	33.8%
Drug use	Reported past drug use	52.1%	48.0%	58.0%

THE HUB SYSTEM: PROFILE OF INMATE POPULATION UNDERCUSTODY ON JANUARY 1, 2002

INTRODUCTION

The New York State Department of Correctional Services reorganized the delivery of program services to the inmate population in 1992. One of the important components of this plan was the grouping of correctional facilities by geographical proximity into administrative regions. These administrative regions, referred to as Hubs, are groups of neighboring facilities that share administrative, support and program services. Each Hub has a core or "HUB" facility at which inmates are received and from which inmate movement and other administrative service delivery functions are controlled.

Purpose of the Report

The sections of this report profile the inmate population in each Hub as well as the population at each of the correctional facilities within the Hub. These profiles contain information on demographic characteristics and on other variables. These data will familiarize staff at each Hub with the overall characteristics of inmates in the Hub population as well as with differences in the characteristics of the inmate population at each of the respective facilities in the Hub. This information permits comparisons with the characteristics of the inmate population between the different Hubs. The report serves as a profile of the undercustody population at the beginning of the year 2002.

In the tables and graphs presented in the report each Hub is identified by the administrative facility for that Hub. Staff often refer to each Hub by the administrative facility for that Hub. The Hub facility for each Hub (along with a short abbreviation used in graphic displays) is as follows: Oneida C.F., Oneida Hub (ONI); Watertown C.F., Watertown Hub (WAT); Clinton C.F., Clinton Hub (CLI); Sullivan C.F., Sullivan Hub (SUL); Green Haven C.F., Green Haven Hub (GH); Great Meadow C.F., Great Meadow Hub (GM); Wende C.F., Wende Hub (WEN); Elmira C.F., Elmira Hub (ELM); Sing Sing C.F., New York City Hub (NYC). Appendix A presents a map showing the 9 regional Hubs and the correctional facilities within each.

For the readers who wish to track specific Hub profiles from year-to-year, please note the following changes that have occurred since January 1, 2000:

- Camp Georgetown was moved from the Elmira Hub to the Oneida Hub.
- Camp Pharsalia was moved from the Elmira Hub to the Oneida Hub.
- Sing Sing was moved from the Green Haven Hub to the New York City Hub.
- Five Points was added to the Elmira Hub.

Section One

DEMOGRAPHIC CHARACTERISTICS

Gender Distribution

There were 67,394 inmates undercustody on January 1, 2002, of whom 64,261 (95.4%) were men and 3,133 (4.6%) were women (see Table 1). The inmate population decreased by 2,759 (3.9%) since January 1, 2001 (N = 70,153). Male inmates decreased by 2,613 (3.9%) and female inmates decreased by 146 (4.5%). Female inmates decreased from 4.7% of total population in January 2001 to 4.6% in January 2002.

Females are incarcerated in three of the nine Hubs. For these three, the percentage of a Hub's total population that consists of women ranges from 7.6% in the New York City Hub to 21.5% in the Green Haven Hub (see Table 1 and Figure 1).

Age Distribution

Table 2 shows the age distribution by Hub. The largest cohort was inmates 35-39 years old (12,358; 18.3%). The second largest age cohort was inmates 30-34 years old (12,290; 18.2%).

Sixteen to eighteen year old inmates, for whom the State must provide schooling, constituted 1.2% (N = 803) of the total undercustody population as of January 1, 2002. There were more than 100 inmates age 16 - 18 in two of the nine Hubs. For programmatic purposes the Department has increased the concentration of younger inmates at selected facilities in the Great Meadow Hub (see Figure 2). The average and median age of inmates housed at each facility is presented in Table 2A.

Inmates sixty or more years old constituted 1.8% (N=1,186) of the 67,394 inmates undercustody. The Oneida, Clinton, Sullivan, Green Haven, Wende, and New York City Hubs all have at least 100 inmates who are sixty or older.

Race/Ethnic Distribution

Race/ethnic status of undercustody inmates is shown in Table 3. Approximately half (50.8%) of the inmates were African-American, about thirty percent were Hispanic (29.9%) and the remainder were White (17.5%), other (1.5%, Asian and Native American) or unknown (0.4%). There was variability in the distribution of ethnic groups between Hubs. For example, the percent of Whites ranged from 10.9% in the New York City Hub to 24.2% in the Wende Hub (see Figure 3). Among Hispanics, the range was from 24.8% in the Wende Hub to 35.5% in the Watertown Hub. Among African-Americans, the range was from 47.3% in the Oneida Hub to 53.5% in the Great Meadow Hub.

Region of Commitment

The majority of inmates were committed from New York City (62.2%, NYC = Kings, New York, Queens, Richmond and Bronx counties). An additional 10.3% were committed from suburban New York (Nassau, Rockland, Suffolk, Westchester counties), 15.3% from upstate counties with a population center containing 50,000 inhabitants or more (Albany, Broome, Erie, Monroe, Oneida, Onondage, Rennselaer, Schenectady counties), and 12.2% from the remaining upstate counties. There were differences across the Hubs in the proportion of inmates from each region of the state. The Wende and Elmira Hubs in the western part of the state had a somewhat higher concentration of inmates committed from upstate urban and upstate rural counties (see Figure 4). Correspondingly, Sullivan and New York City Hubs had a higher concentration of inmates from New York City and Suburban New York City counties. These differences are in part due to housing work release inmates at facilities near the residence county of the inmate.

Country of Birth

Seventy-nine percent (79.4%) of undercustody inmates were born in the United States and an additional eight percent in one of its territories (7.8%) including American Samoa, Panama Canal Zone, Guam, U.S. Virgin Islands and Puerto Rico (see Table 5). Approximately 12.6% (N = 8,462) of the undercustody inmates were born in a foreign country. Most of the inmates born in a foreign country were from one of the island nations in the Caribbean basin (N = 5,153 or 7.6% of undercustody inmates).¹

Foreign birth may have implications for programming decisions, due to differences in culture or language (many inmates from the Caribbean, South America, or Central America are Spanish dominant). The percent of foreign-born inmates ranged from 10.1% in the Elmira Hub to 15.6% in the Watertown and Green Haven Hubs (see Figure 5 and Table 5A).

Figure 5
Foreign Born Inmates Undercustody

¹ For additional information on foreign born inmates see "The Impact of Foreign-Born Inmates on the New York State Department of Correctional Services" (February, 2002), New York State Department of Correctional Services, Albany, New York 12226.

Marital Status

Almost a fifth (19.8%) of undercustody inmates were legally married at the time of commitment. Another 5.2% were living in a common law arrangement at the time of their commitment. The majority were single, never married (64.8%); the balance were separated/divorced (8.4%); or widowed (0.9%) (see Table 6).

The distribution of single, never married inmates among Hubs ranged from 57.5% in the Sullivan Hub to 75.0% in the Great Meadow Hub, the Hub with the highest proportion of young inmates (see Figure 6).

Number of Living Children

The majority of inmates undercustody (59.3%) had at least one living child (see Table 7 and Figure 7). Approximately 10% of undercustody inmates reported four or more living children. The percentage of inmates with at least one child varied considerably from 46.4% in the Great Meadow Hub to 64.5% in the Watertown Hub. The Great Meadow Hub, with the highest concentration of young offenders, had the lowest percentage of inmates with children.

Religious Affiliation

Eighty-six percent (86.4%) of undercustody inmates claimed affiliation with a recognized religion. Over sixty percent (61.0%) belonged to a Christian faith. Sixteen percent (15.5%) affiliated with the Islamic faith and ten percent (10.0%) with other religions (see Table 8). Fourteen percent (13.6%) either did not claim affiliation with a religion or there was no information about them.

Catholics were the single largest religious group at 30.6%. The variation across Hubs in Catholic inmates was from 26.9% in the Elmira Hub to 34.5% in the Oneida Hub (see Figure 8).

Veteran Status

Veterans undercustody are eligible for various benefits² and as a result the Department tracks the number of veterans in its custody. The Department operates programs for veterans of military service at several facilities.

The Department had veteran information on 66,653 inmates undercustody, of whom 3,830 were veterans of the armed forces (5.7%). Of the veterans, 2,239 were post-Vietnam War-era veterans and 1,142 were Vietnam War-era veterans; an additional 237 served prior to Vietnam and for 212 veterans the era of service was unknown (see Table 9). Figure 9 shows the proportion of veterans in each Hub. The distribution of veteran inmates ranged from a low of 4.2% in the Watertown Hub to a high of 7.8% in the Sullivan Hub.

Section Two

CRIMINAL HISTORY

Minimum Sentence

The median minimum sentence of undercustody inmates was 54.0 months. However, the average minimum sentence length was 95.6 months (almost eight years), reflecting the influence of lengthy minimum sentences received by many inmates in the maximum security facilities (see Table 10B).³

There were differences between Hubs in average and median minimum sentence length (see Table 10A and Figure 10), but these differences were partially driven by the number of maximum-security facilities in each Hub. Inmates with long sentences are more likely to be confined in maximum-security facilities. Hubs where the ratio of maximum-security inmates to all other inmates is high will tend to have a higher proportion of inmates with lengthy minimum terms. Median minimum sentence length ranged from 42 months in the Oneida, Watertown, and Great Meadow Hubs to a high of 96 months in the Sullivan Hub (see Table 10A and Figure 10). The median minimum sentence for persons in maximum-security facilities was 120 months; and for those in medium security facilities, it was 48 months (see Table 10B). For inmates in minimum-security facilities the median minimum term was 30 months. Table 10C shows the distribution of minimum sentence by facility security level. Table 10B shows the average and median minimum sentence by facility security level.

Figure 10
Median Minimum Sentence

³ The median is a measure of central tendency which represents the value of the middle case (i.e. the case or cases at the 50th percentile) in the distribution of cases. The median is less subject to the influence of extreme values than is the arithmetic average and is preferred by some users for this reason.

Commitment Crime

Over a quarter (28.5%) of undercustody inmates were committed for drug offenses; 18.0% for robbery (total of Robbery 1^s, Robbery 2nd, and Robbery 3rd, see Table 11) and 10.6% for murder (see Table 11). Many inmates were committed for multiple crimes. For those offenders with more than one commitment crime, the crime with the longest maximum term is the crime reflected in Table 11.

Variation in the percent of drug offenders housed at each Hub was considerable; the percents ranged from 20.4% in the Sullivan Hub to 40.2% in the Oneida Hub (see Table 11A). Similarly, the percent of inmates that are violent felony offenders ranged from 40.5% in the Oneida Hub to 70.9% in the Sullivan Hub (see Figure 11 and Table 11A).

Second Felony Offender Status

Almost half of the inmates (48.2%) undercustody on January 1, 2002 were second felony offenders (see Table 12), forty-eight percent (48.2%) were first felony offenders and four percent (3.7%) were persistent felony offenders. The percent of second felony offenders undercustody ranged from 38.1% in the Great Meadow Hub to 60.7% in the Watertown Hub (see Figure 12).

Prior Adult Criminal Record

Inmates are placed in a category based on their most extensive penetration into the criminal justice system prior to their current incarceration. Thirty-five percent (34.9%) of undercustody inmates had served a prior prison term (see Table 13). For 24 percent (24.1%) prior jail was the most serious contact with the criminal justice system. Twenty percent (19.5%) had a prior adult criminal conviction which did not result in jail or prison incarceration. Eight percent (7.9%) had no prior conviction and 14 percent (13.6%) had no prior arrest.

The percent of inmates with a prior prison term varied from 27.4% in the Great Meadow Hub to 40.0% in the Watertown Hub (see Figure 13). The percent of inmates with no prior arrest ranged from 9.8% in the Watertown Hub to 18.8% in the Green Haven Hub.

Length of Time Served at Current Holding Facility

The average amount of time served at the current facility was 15.6 months and the median was 7.3 months (see Table 14A). Comparing the Hubs, the range in average time served at current facility was 10.3 months in the Watertown Hub to 25.0 months in the Green Haven Hub. The median time at current holding facility ranged from 5.1 months in the New York City Hub to 12.4 months in the Sullivan Hub (see figure 14). Information on length of time served at current holding facility is useful to facility staff when planning inmate program assignments. Staff use this information to help design assignments that minimize the risk of disruption to the inmate's program plan due to transfer or release.

Length of Time in Department Custody

Table 15A shows that the inmates held undercustody on January 1, 2002 had spent on average 47.6 months in DOCS since their latest admission date. The median length of time was 26.0 months. Table 15 shows that 15,051 (22.3%) had spent 72 months or more undercustody as of January 1, 2002 and 5,911 (8.8%) had spent less than 3 months undercustody as of that date. Table 15A shows inmates in the Sullivan Hub had served the longest (median 64.6 months) and Watertown Hub had the lowest median time served (14.6 months).

The 15,051 inmates undercustody 72 months or more is a general indicator of the current "long term" population in New York State correctional facilities. Long term inmates may require a somewhat different sequence (or mix) of education, vocational training and then work assignment than would be true for other inmates with comparatively shorter sentences.

Time to Earliest Release Eligibility

Time to earliest release date is a measure of the earliest possible date at which the inmate can be legally released. Inmates are not necessarily released on this date because the parole board may require the inmate to remain in prison beyond the earliest legal release date, or, the inmate may lose good time due to poor discipline and thus remain in prison longer.

Table 16A shows that the "average time to earliest release" for the total undercustody population on January 1, 2002 was 43.1 months and the "median time to earliest release" was 15.4 months.

The range of median time to serve by Hub was considerable. In the Watertown Hub, the median time to earliest release was just 10.9 months. However, in the Green Haven Hub it was 27.0 months (see Figure 16). Figures on average time to earliest release showed even wider variation: 15.7 months in the Watertown Hub and 72.6 months in the Green Haven Hub.

Figure 16

Section Three

PROGRAM RELEVANT CHARACTERISTICS

Reading Proficiency

The Department's education program objective is to encourage every inmate to pass a high school equivalency General Education Diploma (GED) test while incarcerated. Testing and education programming are used by the Department to track the academic level of inmates in reading and mathematics. In order to take the GED examination the Department requires inmates to take tests demonstrating at least a ninth grade level in reading and mathematics.⁴ Directive 4804 detailing Departmental educational policy was reissued on April 18, 2001, it increased the reading level requirements for the GED exam from 8th grade to 9th grade. This directive requires most inmates to be placed in educational programming until reading levels are tested at the 9th grade level.

Data on reading proficiency and academic degree status were taken from a data file compiled on January 13, 2002. The number of cases on these educational tables (N=67,267) is slightly different than that for earlier tables (e.g. 67,394 in Table 1). The data is presented for total inmates for all examinations (Table 17), English language examinations (Table 17A) and Spanish language examinations (Table 17B). Inmates with reading levels in the 0 – 4th grade range require adult basic education (ABE) courses. Inmates in the 5 – 8th grade range require course work to improve their test scores before being eligible for the GED examinations. Inmates in the 9 – 12th grade category are eligible to take the GED examinations.

Table 17 shows that of the 67,267 inmates undercustody on January 13, 2002, 32,826 (48.8%) had a verified GED, high school diploma or higher degree, and 34,441 (51.2%) were without academic degrees. Not eligible to take a GED exam were 9,113 inmates (13.5%) whose reading ability was below the fifth grade level, and 15,886 inmates (23.6%) whose reading ability was below the ninth grade level. These inmates require additional services in order to qualify to take a GED exam.

The percent of inmates in each HUB whose reading ability level was ninth grade or below is presented in Figure 17. Sullivan Hub had the lowest percent of inmates reading below the ninth grade level (27.4%). Watertown Hub had the highest percent of inmates reading below the ninth grade level (41.2%).

Table 17A shows the reading level test results for inmates taking English reading tests. This group of inmates was comprised of those with their highest test score on the English reading test, those with no preference for English or other languages and no language preference recorded. Of these inmates, 31,108 (50.5%) had a verified GED, high school diploma, or higher degree. Of the remaining 30,435 inmates, 7,870 can read at the ninth grade level or above and are eligible to take a GED examination. There were 21,610 inmates reading below the ninth grade level and required additional education courses to be eligible for the GED examination. English reading level results ranged by Hub from 25.2% reading below ninth grade level at the

⁴ see Department Directive #4804, NY DOCS, Albany, N.Y. 12226

Sullivan Hub to 38.3% at the Watertown Hub.

Table 17B shows the reading level for the Spanish dominant inmates undercustody on January 13, 2002. Of the 5,724 Spanish dominant inmates, 1,718 (30.0%) had a verified diploma from a high school or a degree beyond the high school level. Of the remaining 4,006 inmates, 542 could read in Spanish at a ninth grade level or above and according to Departmental policy were eligible to take the General Education Diploma (GED).⁵ Inmates who are unable to take the GED in English may take a Spanish language GED test. Table 17B shows that there were 3,389 Spanish dominant inmates who read below the ninth grade level and required additional education services to qualify to take a GED exam. There were an additional 75 inmates missing test data who still need to complete a Spanish reading test to determine their reading level. Spanish reading level results were lowest with 48.9% of inmates in the Sullivan Hub reading below ninth grade level and highest with 66.0% in the Oneida Hub.

Academic Degree Status

Table 18 presents data on the educational attainment of persons undercustody on January 13, 2002. The data reveal that only 32,826 (48.8%) inmates had at least a high school diploma or General Education Diploma out of 67,267 undercustody inmates. The Department only recognizes academic degrees that can be verified from an outside source or which are awarded while the inmate is in custody.

A comparison of the Hubs by percent of inmates with a GED, high school diploma or higher degree shows that the Sullivan Hub had the highest percent at 61% while the Great Meadow Hub had the lowest percent at 44.6%.

English Language Proficiency

The vast majority (89.8%) of inmates undercustody are English language dominant (see Table 19). There were also 5,810 inmates who were Spanish language dominant (8.6%, which includes Spanish dominant only, Spanish and limited English, and Spanish and moderate English). The number of Spanish language dominant on January 1, 2002 (N=5,810) differs slightly from those inmates taking Spanish reading tests and Spanish GED tests as reported on January 13, 2002 (N=5,724) in the section on reading proficiency. Spanish dominant inmates were present in significant numbers in several Hubs (also see Figure 19). For instance, the Wende Hub in the western part of the state had 1,080 Spanish language dominant inmates; the Clinton Hub had 783 Spanish language dominant inmates and the Oneida Hub had 752 Spanish language dominant inmates. Spanish dominant inmates may require special programming and present special security problems because of their limited English comprehension.

Michigan Alcoholism Screening Test Score

Alcoholism is a serious problem in the undercustody population. To assess the extent of alcoholism the Michigan Alcoholism Screening Test (MAST) is administered to inmates during the reception/classification process. For purposes of this report "alcoholic" is defined as a score of 9 or higher on the MAST. A score of between 5 and 8 on the MAST is defined as "suggestive alcoholism". Of the 59,445 inmates for whom test results were available 25.6% (N=15,220) were defined as alcoholic and another 13.6% (N=8,080) were possibly alcoholic (see Table 20). The Hubs varied in the percent alcoholic or possibly alcoholic; the Clinton Hub had 32.1% alcoholic or possibly alcoholic and the Wende Hub had 50.1% alcoholic or possibly alcoholic (see Figure 20). The high percent of alcoholic inmates in the Wende Hub was in part due to the Driving While Intoxicated Program at Gowanda C.F. As of January 1, 2002, there were 317 inmates at Gowanda C.F. serving a sentence for DWI (see Table 11, p. 30).

Drug Use

Fifty-two percent (52.1%) of undercustody inmates admitted to drug use prior to confinement on the instant offense (see Table 21). This included 23.6% who admitted to cocaine use (including crack or crystalline cocaine) either alone or in combination with other drugs. Other drugs used by a substantial number of inmates included substances containing cannabis (e.g. marijuana) and narcotics. Table 21 shows that many inmates were multiple drug users. The following ranking system has been used to assign multiple drug users to a category: (1) cocaine or crack, (2) hallucinogens, (3) narcotics, (4) cannabis, (5) other drugs. If a person uses cocaine and narcotics, cocaine use is counted. Similarly, if marijuana and narcotics are both used, narcotics is counted.

There was variation across the Hubs in the percentage of inmates who admitted drug use (see Figure 21). For example, in the New York City Hub, twenty-eight percent (27.7%) of inmates admitted prior use of cocaine in some form whereas only nineteen percent (18.6%) of inmates in the Great Meadow Hub claimed to have used it. Forty-two percent (42.0%) of inmates in the Watertown Hub denied drug use compared to fifty-two percent (52.0%) of inmates in the Clinton Hub.

Figure 21
Self-Reported Drug Use
Cocaine/Crack or Narcotics

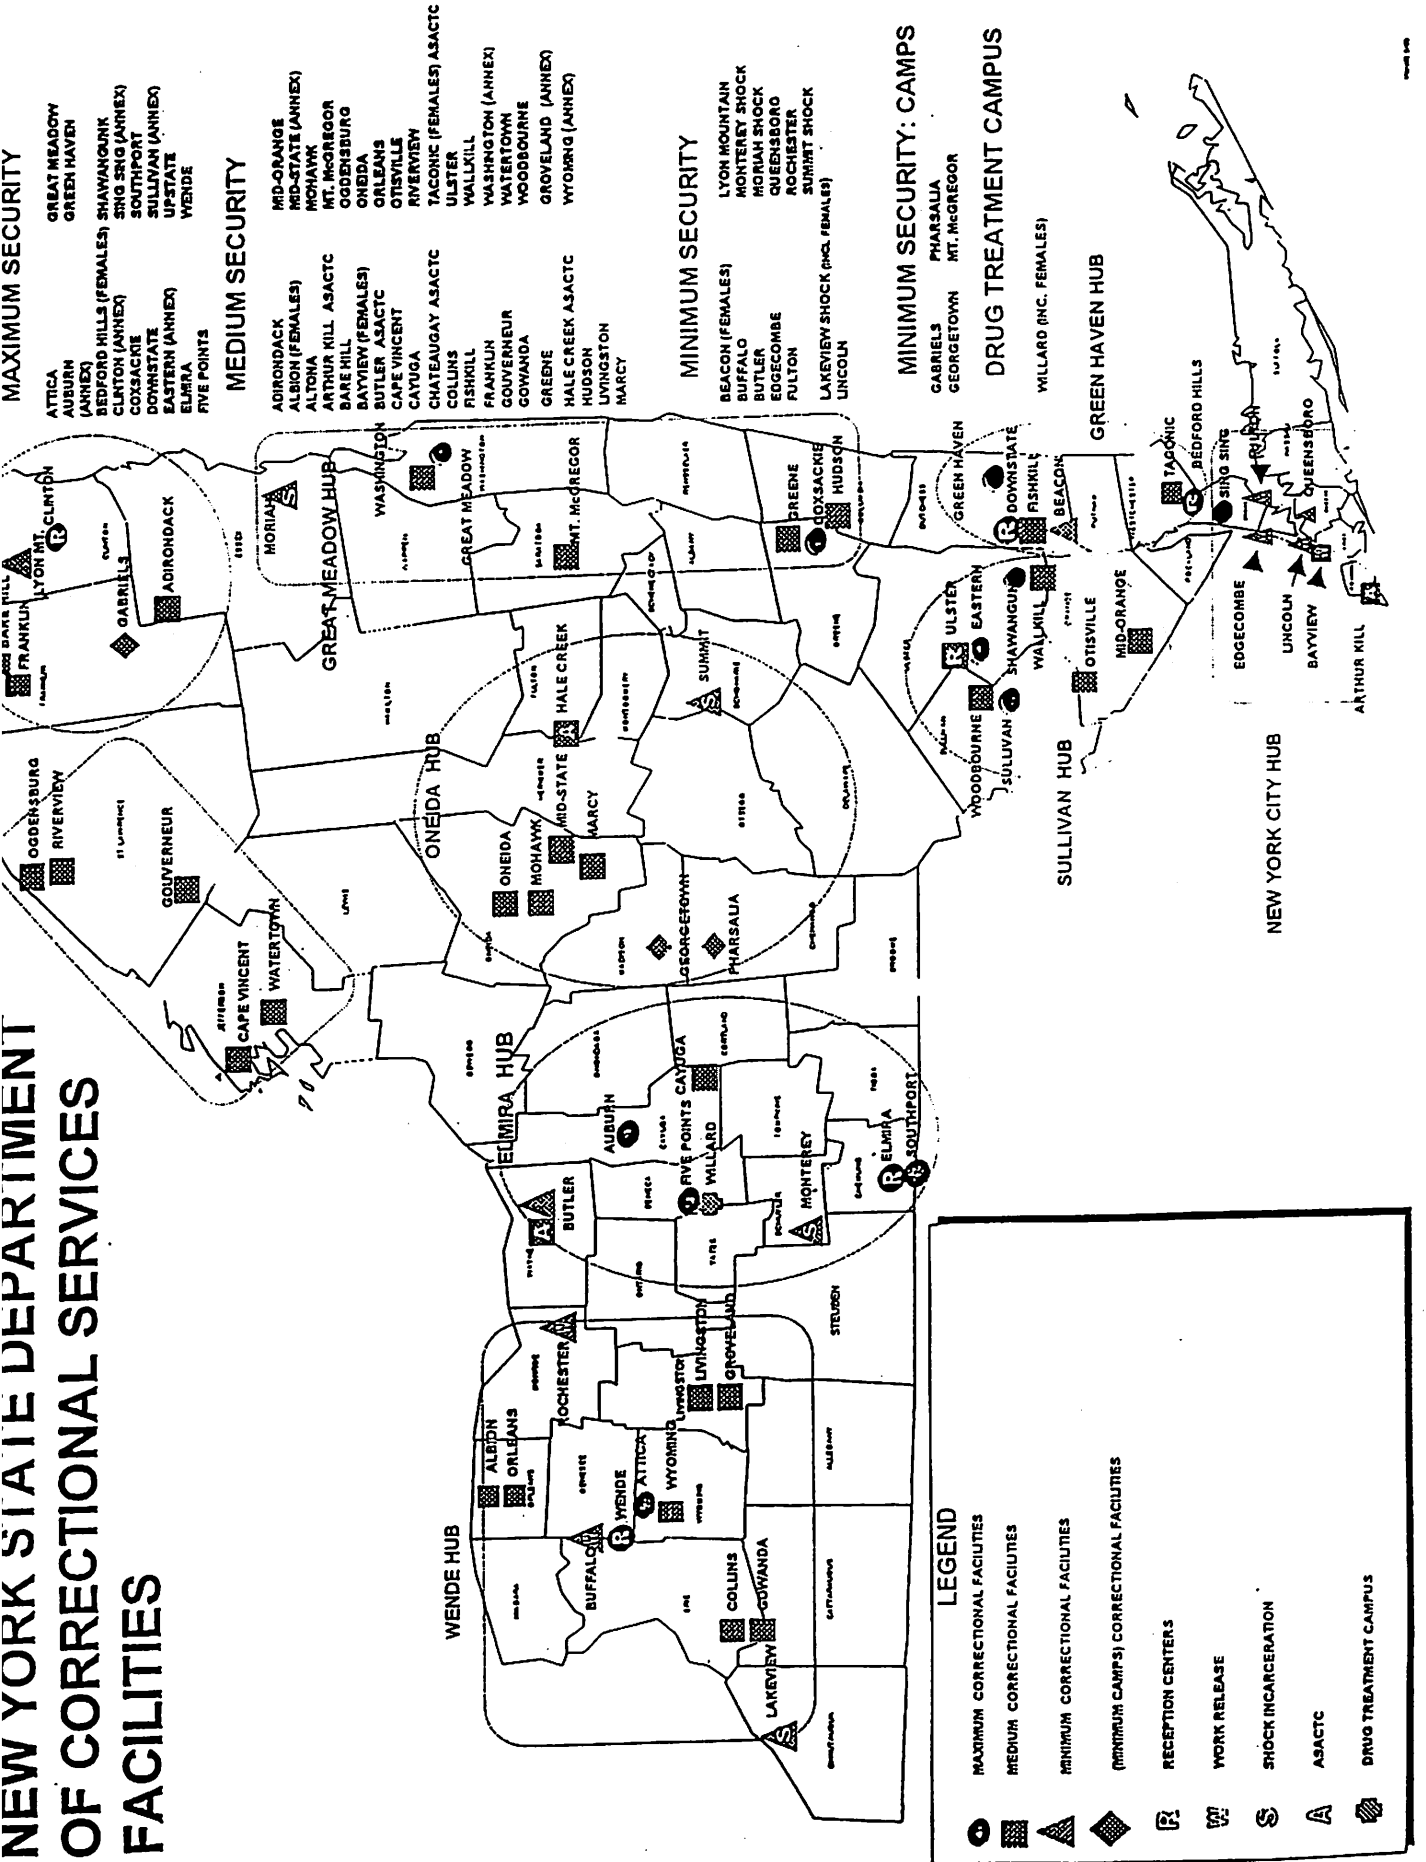

TABLE 21. PATTERN OF INMATE DRUG USE BY HUB AND FACILITY: UNDERCUSTODY POPULATION JANUARY 1, 2002
