## EXECUTIVE SUMMARY

In 1992, the New York State Department of Correctional Services reorganized the delivery of program services to the inmate population. One of the components of this plan is grouping the correctional facilities by geographical proximity into administrative regions. This report presents a profile of the inmate population within each region. This executive summary briefly describes the characteristics of the total undercustody population and then lists the range of values found across the nine administrative HUBS on a selected set of variables.

CHARACTERISTICS	CATEGORY	TOTAL UNDER CUSTODY	RANGE ACROSS HUBS	
			Low	High
Gender	Female	4.5%	0.0%	21.3%
Age	Average age	35.1 yrs	29.8 yrs	38.2 yrs.
Race/ethnic status	White	18.1%	11.3%	24.9%
	African American	50.0%	46.2%	54.2%
	Hispanic	29.5%	24.4%	36.6%
Region	From New York City	60.1%	45.2%	77.0%
Birthplace	Foreign Born	12.6%	8.4%	17.4%
Marital Status	Never married	64.7%	57.0%	76.3%
Living Children	One or more living children	59.4%	45.0%	65.1%
Religious Affiliation	Catholic	29.7%	24.4%	33.7%
	Protestant	31.0%	27.9%	35.1%
	Islam	14.5%	12.2%	16.6%
Veteran Status	Veteran	5.3%	2.2%	7.4%
Minimum Sentence	Average minimum sentence in months	101.6 mos.	53.8 mos.	150.1 mos.
Crime	Violent Felony	55.8%	42.4%	73.3%
Second felony offender status	Second felony	46.3%	34.0%	59.9%

CHARACTERISTICS	CATEGORY	TOTAL UNDER CUSTODY	RANGE ACROSS HUBS	
			Low	High
Prior adult criminal record	Prior prison term	34.9%	25.4%	41.5%
Time served at current facility	Median time served in months	7.2 mos.	4.9 mos.	12.5 mos.
Time served in Department custody	Median time served in months	25.3 mos.	13.4 mos.	71.9 mos.
Time to earliest release	Median time to release in months	16.9 mos.	12.9 mos.	33.4 mos.
Reading level	Test results at 8 <sup>th</sup> grade or below for all inmates	36.1%	24.8%	42.1%
Academic Degree	Verified high school diploma or above	48.4%	43.0%	62.7%
English language fluency	English dominant	90.3%	86.6%	93.2%
Substance Abuse	Reported Substance Abuse (includes Alcohol)	73.4%	64.5%	79.5%
Alcoholism	Alcoholic	26.0%	20.9%	32.5%

## **THE HUB SYSTEM: PROFILE OF INMATE POPULATION UNDER CUSTODY ON JANUARY 1, 2004**

### **INTRODUCTION**

The New York State Department of Correctional Services reorganized the delivery of program services to the inmate population in 1992. One of the important components of this plan was the grouping of correctional facilities by geographical proximity into administrative regions. These administrative regions, referred to as Hubs, are groups of neighboring facilities that share administrative support and program services. Each Hub has a core or "HUB" facility at which inmates are received and from which inmate movement and other administrative service delivery functions are controlled.

#### **Purpose of the Report**

The sections of this report profile the inmate population in each Hub as well as the population at each of the correctional facilities within the Hub. These profiles contain information on demographic characteristics and on other variables. These data will familiarize staff at each Hub with the overall characteristics of inmates in the Hub population as well as with differences in the characteristics of the inmate population at each of the respective facilities in the Hub. This information permits comparisons with the characteristics of the inmate population between the different Hubs. The report serves as a profile of the under custody population at the beginning of the year 2004.

In the tables and graphs presented in the report each Hub is identified by the administrative facility for that Hub. Staff often refer to each Hub by the administrative facility for that Hub. The Hub facility for each Hub (along with a short abbreviation used in graphic displays) is as follows: Oneida C.F., Oneida Hub (ONI); Watertown C.F., Watertown Hub (WAT); Clinton C.F., Clinton Hub (CLD); Sullivan C.F., Sullivan Hub (SUL); Green Haven C.F., Green Haven Hub (GH); Great Meadow C.F., Great Meadow Hub (GM); Wende C.F., Wende Hub (WEN); Elmira C.F., Elmira Hub (ELM); Sing Sing C.F., New York City Hub (NYC). Appendix A presents a map showing the 9 regional Hubs and the correctional facilities within each.

### Section One

## DEMOGRAPHIC CHARACTERISTICS

### Gender Distribution

There were 65,197 inmates under custody on January 1, 2004, of whom 62,284 (95.5%) were men and 2,913 (4.5%) were women (see Table 1). Female inmates retained the same proportion of the total population in January 2004 compared with January 2003 at 4.5% of the population.

The inmate population decreased by 1,548, a decline of 2.3 percent since January 1, 2003. Male inmates decreased by 1,465, a decline of 2.8 percent of the male inmate population. Female inmates decreased by 83, 2.8 percent of the female population.

Females are incarcerated in three of the nine Hubs. For these three, the percentage of a Hub's total population that consists of women ranges from 8.3% in the New York City Hub to 21.3% in the Green Haven Hub (see Table 1 and Figure 1).

### Age Distribution

Table 2 shows the age distribution by Hub. The largest cohort was inmates 35-39 years old (11,177; 17.1%). The second largest age cohort was inmates 25-29 years old (10,942; 16.8%).

Sixteen to eighteen year old inmates, for whom the State must provide schooling, constituted 1.1% (N = 740) of the total under custody population as of January 1, 2004. There were more than 100 inmates age 16 - 18 in two of the nine Hubs. For programmatic purposes the Department has increased the concentration of younger inmates at selected facilities in the Great Meadow Hub (see Figure 2). The average and median age of inmates housed at each facility is presented in Table 2A.

Inmates sixty years or older constituted 2.0% (N=1,311) of the 65,197 inmates under custody. The Oneida, Clinton, Sullivan, Green Haven, Wende and Elmira Hubs all have at least 100 inmates who are sixty or older.

The increase in the average age of inmates is a result of the change in the proportion of inmates age 40 and older. In recent years while total population has declined, the number of inmates age 60 and over has increased in absolute numbers. The result is an older inmate population.

### Race/Ethnic Distribution

Race/ethnic status of under custody inmates is shown in Table 3. Exactly half (50.0%) of the inmates were African-American, about thirty percent were Hispanic (29.5%) and the remainder were White (18.1%), Native American (0.6%), Asian (0.5%), other (0.6%), or unknown (0.6%). There was variability in the distribution of ethnic groups among Hubs. For example, the percent of Whites ranged from 11.3% in the New York City Hub to 24.9% in the Wende Hub (see Figure 3). Among Hispanics, the range was from 24.4% in the Elmira Hub to 36.6% in the Watertown Hub. Among African-Americans, the range was from 46.2% in the Oneida Hub to 54.2% in the Elmira Hub.

**Figure 3**

### Region of Commitment

The majority of inmates (60.1%) were committed from New York City (New York City is comprised of Kings, New York, Queens, Richmond and Bronx counties). An additional 10.4% were committed from suburban New York (Nassau, Rockland, Suffolk, Westchester counties), 16.7% from upstate counties with a population center containing 50,000 inhabitants or more (Albany, Broome, Erie, Monroe, Oneida, Onondaga, Rensselaer, Schenectady counties), and 12.8% from the remaining upstate counties. There were differences across the Hubs in the proportion of inmates from each region of the state. The Wende and Elmira Hubs in the western part of the state had a lower concentration of inmates from New York City and a higher concentration of inmates committed from upstate counties (see Figure 4). Correspondingly, Sullivan and New York City Hubs had a higher concentration of inmates from New York City and Suburban New York City counties.

**Figure 4**  
**Inmates Committed From New York City**

### Country of Birth

Eighty percent (80.0%) of under custody inmates were born in the United States. An additional eight percent (7.2%) were born in a United States Territory, including American Samoa, Panama Canal Zone, Guam, U.S. Virgin Islands and Puerto Rico (see Table 5). Approximately thirteen percent (12.6%, N = 8,234) of the under custody inmates were born in a foreign country. Most of the inmates born in a foreign country were from one of the island nations in the Caribbean basin (N = 4,823 or 7.4% of under custody inmates).<sup>1</sup>

Foreign birth may have implications for programming decisions due to differences in culture or language (many inmates from the Caribbean, South America, or Central America are Spanish language dominant). The percent of foreign-born inmates ranged from 8.4% in the Elmira Hub to 17.4% in the Watertown Hub (see Figure 5 and Table 5A).

**Figure 5**  
**Foreign Born Inmates Undercustody**

<sup>1</sup> For additional information on foreign born inmates see "The Impact of Foreign-Born Inmates on the New York State Department of Correctional Services" (February, 2004), New York State Department of Correctional Services, Albany, New York 12226.

### Marital Status

About one-fifth (20.2%) of under custody inmates were legally married at the time of commitment. Another 4.8% were living in a common law arrangement at the time of their commitment. The majority were single, never married (64.7%); the balance were separated/divorced (8.7%) or widowed (0.9%) (see Table 6).

The distribution of single, never married inmates ranged from 57.0% in the Sullivan Hub to 76.3% in the Great Meadow Hub. The Great Meadow Hub had the highest proportion of young inmates (see Figure 6).

**Figure 6**

### Number of Living Children

The majority of inmates under custody (59.4%) report at least one living child (see Table 7 and Figure 7). Approximately 11% of under custody inmates reported four or more living children. The percentage of inmates with at least one child varied considerably from 45% in the Great Meadow Hub to 65.1% in the Watertown Hub. The Great Meadow Hub, with the highest concentration of young offenders, had the lowest percentage of inmates with children.

## Religious Affiliation

Eighty-seven percent (86.5%) of under custody inmates claimed affiliation with a recognized religion. Over sixty percent (60.7%) belonged to a Christian faith. Fifteen percent (14.5%) affiliated with an Islamic faith and eleven percent (11.2%) with other religions (see Table 8). Thirteen percent (13.5%) either did not claim affiliation with a religion or did not provide information about religious affiliation.<sup>2</sup>

In recent years, the percentage of the inmate population identifying as Catholic has been decreasing while those identifying as Protestant has been increasing. Due to this trend, last year (as reported in the January 1, 2003 report) inmates identified as Protestant became the largest religious group passing inmates identified as Roman Catholic. The variation across Hubs for Catholic inmates was from 24.4% in the Elmira Hub to 33.7% in the Watertown Hub (see Figure 8). The Clinton Hub had the lowest proportion of inmates identified as Protestant (27.9%) and the Wende Hub had the highest percent (35.1%).

**Figure 8**  
**Religious Affiliation**

<sup>2</sup> For additional information on this topic see Religious Affiliation of Undercustody Population (2003) New York State Department of Correctional Services, Albany, New York 12226

### Veteran Status

Veterans under custody are eligible for various benefits from the U.S. Veterans Administration and as a result the Department tracks the number of veterans in its custody. The Department operates programs for veterans of military service at several facilities.

The Department had veteran information on 64,474 inmates under custody, of whom 3,407 (5.3%) were veterans of the armed forces. Of the veterans, 2,066 were post-Vietnam War-era veterans and 951 were Vietnam War-era veterans; an additional 199 served prior to Vietnam and for 191 veterans the era of service was unknown (see Table 9). Figure 9 shows the proportion of veterans in each Hub. The distribution of inmates who were veterans ranged from a low of 2.2% in the Watertown Hub to a high of 7.3% in the Sullivan Hub.

**Figure 9**

## Section Two

### CRIMINAL HISTORY

#### Minimum Sentence

The median minimum sentence of under custody inmates was 60.0 months (see Table 10A). However, the average minimum sentence length was 101.6 months (over eight years), reflecting the influence of lengthy minimum sentences received by many inmates currently housed in maximum security facilities (see Table 10B).<sup>3</sup> Table 10B shows the average and median minimum sentence by facility security level.

There were differences between Hubs in average and median minimum sentence length (see Table 10A and Figure 10), but these differences were partially driven by the number of maximum-security facilities in each Hub. Inmates with long sentences are more likely to be confined in maximum-security facilities. Hubs where the ratio of maximum-security inmates to all other inmates is high will tend to have a higher proportion of inmates with lengthy minimum terms. Median minimum sentence length ranged from 42 months in the Watertown Hub to a high of 103 months in the Sullivan and Green Haven Hubs (see Table 10A and Figure 10). The median minimum sentence for persons in maximum-security facilities was 144 months; and for those in medium security facilities, it was 51 months (see Table 10B). For inmates in minimum-security facilities the median minimum term was 31 months. Table 10C shows the distribution of minimum sentence by facility security level. As of January 1, 2004, there were 124 inmates under custody who had received a sentence of "Life Without Parole" and 6 inmates who had received a death penalty sentence (see table 10).

Figure 10  
Median Minimum Sentence

<sup>3</sup> The median is a measure of central tendency which represents the value of the middle case (i.e. the case or cases at the 50<sup>th</sup> percentile) in the distribution of cases. The median is less subject to the influence of extreme values than is the arithmetic average and is preferred by some users for this reason.

### Commitment Crime

Over a quarter (26.2%) of under custody inmates were committed for drug offenses; 17.7% for robbery (total of Robbery 1<sup>st</sup>, Robbery 2<sup>nd</sup>, and Robbery 3<sup>rd</sup>, see Table 11) and 11.5% for murder (see Table 11). Many inmates were committed for multiple crimes. For those offenders with more than one commitment crime, the crime with the longest maximum term is the crime reflected in Table 11.

Variation in the percent of drug offenders housed at each Hub was considerable; the percents ranged from 17.7% in the Sullivan Hub to 38.2% in the New York City Hub (see Table 11A). Similarly, the percent of inmates that are violent felony offenders ranged from 42.4% in the Oneida Hub to 73.3% in the Sullivan Hub (see Figure 11 and Table 11A).

**Figure 11**

### Second Felony Offender Status

Almost half of the inmates (46.3%) under custody on January 1, 2004 were sentenced as second felony offenders (see Table 12). Fifty percent (49.9%) were first felony offenders and four percent (3.8%) were sentenced as persistent felony offenders. The percent of second felony offenders under custody ranged from 34.0% in the Great Meadow Hub to 59.9% in the Watertown Hub (see Figure 12).

### Prior Adult Criminal Record

Inmates are placed in a category based on their most extensive penetration into the criminal justice system prior to their current incarceration. Thirty-five percent (34.9%) of under custody inmates had served a prior prison term (see Table 13). For twenty-four percent (23.5%), prior jail was the most serious contact with the criminal justice system. Nineteen percent (19.3%) had a prior adult criminal conviction which did not result in jail or prison incarceration. Eight percent (8.0%) had no prior conviction and fourteen percent (14.3%) had no prior arrest.

The percent of inmates with a prior prison term varied from 25.4% in the Great Meadow Hub to 41.5% in the Watertown Hub (see Figure 13). The percent of inmates with no prior arrest ranged from 10.8% in the Elmira Hub to 21.0% in the Green Haven Hub.

**Figure 13**

### Length of Time Served at Current Holding Facility

The average length of time served at the current facility was 15.8 months and the median was 7.2 months (see Table 14A). Average time served at current facility ranged from 10.3 months in the Watertown Hub to 26.2 months in the Green Haven Hub. The median time at current holding facility ranged from 4.9 months in the New York City Hub to 12.5 months in the Sullivan Hub (see figure 14). Information on length of time served at current holding facility is useful to facility staff when planning inmate program assignments. Staff use this information to help design assignments that minimize the risk of disruption to the inmate's program plan due to transfer or release.

### Length of Time in Department Custody

Inmates held under custody on January 1, 2004 had spent on average 50.3 months in DOCS since their latest admission date (see Table 15A). The median length of time was 25.3 months. Table 15 shows that 15,663 (24.0%) had spent 72 months or more under custody as of January 1, 2004 and 6,292 (9.7%) had spent less than 3 months under custody as of that date. Inmates in the Sullivan Hub had served the longest since last admission date (median 71.9 months) and Watertown Hub had the lowest median time served (13.4 months).

The 15,663 inmates who have been held under custody for 72 months or more is a general indicator of the current "long term" population who have been held in New York State correctional facilities. Long term inmates may require a somewhat different sequence (or mix) of education, vocational training, and work assignment than would be true for other inmates with comparatively shorter sentences.

### Time to Earliest Release Eligibility

Time to earliest release date is a measure of the earliest possible date at which the inmate can be legally released. Inmates are not necessarily released on this date because the parole board may require the inmate to remain in prison beyond the earliest legal release date, or, the inmate may lose good time due to poor discipline and thus remain in prison longer.

Table 16A shows that the "average time to earliest release" for the total under custody population on January 1, 2004 was 47.4 months, and the "median time to earliest release" was 16.9 months.

The range of median time to serve across the Hubs was considerable. In the Watertown Hub, the median time to earliest release was just 12.9 months. However, in the Green Haven Hub it was 33.4 months (see Figure 16). Figures on average time to earliest release showed even wider variation: 17.1 months in the Oneida Hub and 75.2 months in the Green Haven Hub.

**Figure 16**

### Section Three

## PROGRAM RELEVANT CHARACTERISTICS

### Reading Proficiency

The Department's education program objective is to encourage every inmate to pass a high school equivalency General Education Diploma (GED) test while incarcerated. Testing and education programming are used by the Department to track the academic level of inmates in reading and mathematics. In order to take the GED examination the Department requires inmates to take tests demonstrating at least a ninth grade level in reading and mathematics.<sup>4</sup> Directive 4804 detailing Departmental educational policy was reissued on April 18, 2001, it increased the reading level requirements for the GED exam from 8<sup>th</sup> grade to 9<sup>th</sup> grade. This directive requires most inmates to be placed in educational programming until reading levels are tested at the 9<sup>th</sup> grade level.

Data on reading proficiency and academic degree status were taken from a data file compiled on January 10, 2004. The number of cases on these educational tables (N=64,966) is slightly different than that for earlier tables (e.g. 65,197 in Table 1). The data is presented for total inmates for all examinations (Table 17), English language examinations (Table 17A) and Spanish language examinations (Table 17B). Inmates with reading levels in the 0 – 4<sup>th</sup> grade range require adult basic education (ABE) courses. Inmates in the 5 – 8<sup>th</sup> grade range require course work to improve their test scores before being eligible for the GED examinations. Inmates in the 9 – 12<sup>th</sup> grade category are eligible to take the GED examinations. Inmates must score ninth grade level or above in both reading and math before being eligible to take the GED exam.

Table 17 shows that of the 64,966 inmates under custody on January 10, 2004, 31,452 (48.4%) had a verified GED, high school diploma or higher degree, and 33,514 (51.6%) were without academic degrees. Not eligible to take a GED exam were 8,779 inmates (13.5%) whose reading ability was below the fifth grade level, and 14,683 inmates (22.6%) whose reading ability was below the ninth grade level. These inmates require additional services in order to qualify to take a GED exam.

The percent of inmates in each HUB whose reading ability level was eighth grade or below is presented in Figure 17. Sullivan Hub had the lowest percent of inmates reading below the ninth grade level (24.8%). Watertown Hub had the highest percent of inmates reading below the ninth grade level (42.1%).

Table 17A shows the reading level test results for inmates taking English reading tests. This group of inmates was comprised of those with their highest test score on the English reading test, those with no preference for English or other languages and no language preference recorded. Of these inmates, 30,010 (50.4%) had a verified GED, high school diploma, or higher degree. Of the remaining 29,549 inmates, 8,498 can read at the ninth grade level or above and are eligible to take a GED examination. There were 20,177 inmates reading below the ninth grade level and required to take additional education courses to be eligible for the GED examination. English reading level results ranged from 23.4% reading below ninth grade level at the Sullivan Hub to 38.7% at the Great Meadow Hub.

---

<sup>4</sup> see Department Directive #4804, NY DOCS, Albany, N.Y. 12226

Table 17B shows the reading level for the Spanish dominant inmates under custody on January 10, 2004. Of the 5,407 Spanish dominant inmates, 1,442 (26.7%) had a verified diploma from a high school or a degree beyond the high school level. Of the remaining 3,965 inmates, 626 could read in Spanish at a ninth grade level or above and according to Departmental policy were eligible to take the General Education Diploma (GED).<sup>5</sup> Inmates who are unable to take the GED in English may take a Spanish language GED test. Table 17B shows that there were 3,285 Spanish dominant inmates who read below the ninth grade level and required additional education services to qualify to take a GED exam. There were an additional 54 inmates missing test data who still need to complete a Spanish reading test to determine their reading level. Spanish reading level results were lowest with 38.1% of inmates in Sullivan Hub reading below ninth grade level and highest with 73.2% in the Watertown Hub.

**Figure 17**  
**Reading Level: 8th Grade or Below**

<sup>5</sup> Department Directive # 4804.

ONLY VERIFIED DATA ON EDUCATION REPORTED

### Academic Degree Status

Table 18 presents data on the educational attainment of persons under custody on January 10, 2004. The data reveal that only 31,417 (48.4%) inmates had at least a high school diploma or General Education Diploma out of 64,966 under custody inmates. The Department only recognizes academic degrees that can be verified from an outside source or which are awarded while the inmate is in custody.

A comparison of the Hubs by percent of inmates with a GED, high school diploma or higher degree shows that the Sullivan Hub had the highest percent at 62.7% while the Great Meadow Hub had the lowest percent at 43.0%.

**Figure 18**

ONLY VERIFIED DATA ON EDUCATION REPORTED

### English Language Proficiency

The vast majority (90.3%) of inmates under custody are English language dominant (see Table 19). There were also 5,371 inmates who were Spanish language dominant (8.2%, which includes Spanish dominant only, Spanish and limited English, and Spanish and moderate English). Spanish dominant inmates were present in significant numbers in several Hubs (also see Figure 19). For instance, the Wende Hub in the western part of the state had 974 Spanish language dominant inmates; the Clinton Hub had 757 Spanish language dominant inmates and the Oneida Hub had 659 Spanish language dominant inmates. Spanish dominant inmates may require special programming and present special security problems because of their limited English comprehension.

## Substance Abuse

As part of the reception process, the Department of Correctional Services attempts to identify inmates who use drugs and have problems with alcohol. Drug use in the six months prior to incarceration is determined by inmate self-report. Alcohol problems are assessed by use of the Michigan Alcoholism Screening Test (MAST). In 2002, the Department supplemented these measures with the Simplified Screening Instrument (SSI). Scores of four or greater on the SSI indicate substance abuse. The specific type of substance is not identified by the SSI test. Since last year the Department is supplementing this information with data from the Inmate Payroll System (KIPY) and the Guidance System (KGNC).

Table 20 shows that seventy-three percent (73.4%) of inmates abuse drugs, alcohol, or both as measured by available data from tests and self-reporting. Note that the information in Table 20 is based on a severity ranking. Inmates who abuse drugs and alcohol are placed in the appropriate drug category, while those using multiple drugs are placed in the most severe category.

There was variation across the Hubs in the percentage of inmates who admitted drug use (see Figure 20). For example, in the Watertown Hub, twenty-four percent (23.5%) of inmates admitted use of crack/cocaine prior to incarceration compared to fifteen percent (15.2%) at the Great Meadow Hub. Fourteen percent (13.7%) of inmates admitted use of narcotics in the Watertown Hub prior to incarceration compared to seven percent (7.3%) at the Great Meadow Hub.<sup>6</sup>

**Figure 20**  
**Self-Reported Drug Use**  
**Cocaine/Crack or Narcotics**

<sup>6</sup> For additional information on this topic see "Identified Substance Abusers - December 2003 (March 2004) New York State Department of Correctional Services, Albany, New York 12226.

### Michigan Alcoholism Screening Test Score

Alcoholism is a serious problem in the under custody population. As noted in the prior section, the Michigan Alcoholism Screening Test (MAST) is administered to inmates during the reception/classification process to assess the extent of alcoholism. For purposes of this report "alcoholic" is defined as a score of 9 or higher on the MAST. A score of between 5 and 8 on the MAST is defined as "suggestive alcoholism". Of the 58,250 inmates for whom test results were available 26.0% (N=15,165) were defined as alcoholic and another 15.0% (N=8,747) were possibly alcoholic (see Table 20).

The Hubs varied in the percent alcoholic or possibly alcoholic; the Sullivan Hub had 32.5% alcoholic or possibly alcoholic and the Wende Hub had 49.0% alcoholic or possibly alcoholic (see Figure 21).

**Figure 21**  
**Alcoholic Inmates**
